Holland Joins in Tacit Pressure to Persuade Panama to Assume Part of Colombian Debt.

#### WISH TO PROTECT SUBJECTS.

Explanation Is Made That There Is No Sympathy for Colombia in This Course - Canal Treaty Received at Washington.

Washington, Dec. 16.—Pending the result of the efforts of General Rafael Reyes to prevail on Panama, through the Washington government, to assume her portion of the Colombian debt, it is not expected that Great Britain or the Netherlands will take any steps toward officially recognizing the new Republic.

This delay, it is explained, is due sole ly to the desire of the London and The Hague governments to protect the interests of their subjects, who are the largest holders of Colombian bonds, and not as signifying sympathy on the part of these two nations for Colombia

It can be further stated that Great Britain and the Netherlands regard the isthmian incident as a closed chapter of international history to which they have already subscribed their unofficial ap-

proval.

An expressman to-day brought the Hay-Bunau-Varilla canal treaty, inclosed in a large steel box, to the State Department. He also had two tin-bound boxes which contained keys to the big steel box and to the smaller box contained within, inclosing the treaty.

#### BATTALION OF MARINES

WILL BE SENT TO COLON.

Washington, Dec. 16 -At the instance of Secretary Moody, Brigadier General George F. Elliott, commandant of the Ma rine Corps, has issued orders for the formation of a battalion of marines to be known as the Caribbean Sea Battalion. This battalion will be regularly attached to the Caribbean Sea Squadron, though its immediate destination is Colon. It will be assembled at Philadelphia as rapidly as possible, and the Dixie already has left Colon to return to that place with the new battalion.

New President of Lady Managers to Make Her Home Here During the Fair.

DISCUSSES SOCIAL PLANS.

Mrs. Daniel Manning Predicts That St. Louis Show Will Be Greatest Exposition Ever Known.

Mrs. Daniel Manning, who was unani-mously elected president of the Board of ady Mangers of the World's Fair, reside in Albany, N. Y., which was the home of her husband, who died while serving as Secretary of the Treasury during President Cleveland's first term.

Mrs. Manning has traveled extensively. She has been a prominent figure in Wash ngton society for many years, is wealthy and has a national acquaintance that is greater, perhaps, than that of any other ember of the Board of Lady Managers.

Mrs. Manning was the center of a traction in the pariors of the Southern Hotel last night and she was kept busy receiving the congratulations of her many friends. Mrs. Manning made the following state

ent to The Republic: "I feel that I haven't a great deal to say, but my husband was a newspaper man and I always try to treat the news papers cordially. "I will te in St. Louis permanently

during the Fair and will probably be here for some time prior, although I have not shaped my plans. When I came here from Albany I did not know that I was to be elected to this position, therefore I made no preparations for a residence here.
"I will remain in St. Louis for several days and will endeavor to formulate my plans. I think I will find it necessary to visit the city several times within the next few months, and you will probably see me often.

PLANS NOT COMPLETE. "What are my plans relative to the so-cial side of the Board of Lady Managers? That is a question that I cannot answer

rived from Stanton they quickly became

at Allen's home in South Third street.

Of course, there will nesessarily have to be a great deal of entertaining, and much of this will fall to the lot of my board, but we cannot say at this time what will be done.

"You can say this: The Board of Lady Managers is going to be a factor in the development and success of the St. Louis World's Fair. We are going to work unanimously and zealously. Every member of the board is in hearty sympathy with the work that lies before us.

"The membership of the Board of Lady Managers comprises types of the finest women in the United States. The action of the body will be above reproach in everything that it undertakes, and we will endeavor to merit the confidence and praise of the persons who are helping to make this great Exposition.

"The Fair will be the greatest Exposition the world has ever known, and I feel proud of the splendid organization that has to-day honored me.

"I feel exceedingly proud of my election to the presidency, chiefly because of the sterling qualities of the women who comprise the membership of the Board of Lady Managers. I shall strive to make the work of the board a success and I feel sure that I will have the carnest cooperation of every woman who is associated with me."

Mrs. Manning is a Daughter of the American Revolution, and served as pres-

clated with me."

Mrs. Manning is a Daughter of the American Revolution, and served as president of that organization during 1898, 1899 and 1990. She was affiliated with the American department at the Paris Exposition and was decorated with the cross of the Legion of Honor for the work she did in behalf of the United States at that World's Fair.

#### ROUTINE MATTERS BEFORE NATIONAL FAIR COMMISSION

The National Commission met at the Southern Hotel yesterday, but, according to Senator Carter, President of the com-mission, very little was done, other than business of a purely routine nature. The matter of naming an additional member of the Board of Lady Managers was not acted upon. In regard to this

Benator Carter sald: "The Exposition Company has not, a understand it, made a selection from among the women of St. Louis, so the matter was dropped. It dld not come up for discussion in the meeting to-day, but may before we adjourn."

Asked if the action of the Board of Lady Managers relative to the case of Marie Schuerman, former stenographer of the board, had been brought before the ission. Senator Carter said that it had not. The Board of Lady Managers decided to allow Miss Schuerman 3300, and the action of the board will be brought before the commission to-day probably. The commission will meet at the Southern Hotel this morning.

Crushed Under Engine.

John Carr, a car inspector, employed by the Big Four Railroad Company, was crushed to death under the wheels of a Chicago and Alton passenger engine, near Sixteenth street, yesterday afternoon. Carr was about to cross the track on which the engine was backing into Union Station when struck and knocked across the rails. The body was taken to the Morgue. Carr was 30 years old and lived with his wife and children at No. 53 North Seventh street, East St. Louis,

here throughout the Exposition. As yet she has not formed any definite plans, but it is understood that she will come here shortly after the New Year.

The board members were conveyed to the Exposition in a private trolley car, arriving at the Administration building about 11 o'clock. They lost no time in laying aside furs and wraps and settling down to active business. Mrs. Buchwalter, first vice president, took the chair and promptly called the meeting to order.

Tenth—The detail of Thomas W. Gilmer Among the things taken up was the matter of securing for the board a member from St. Louis. This was discussed at some length, and the sentiment of all the members was strongly in favor of its being done, if possible, at the present meeting.

Mrs. John M. Holcombe of Connecticut spoke in favor of the measure. She sald St. Louis, being the World's Fair city, and possessing so many representative women, it was almost a duty of the board to see to it that some local woman be included in the membership.

It is understood that the Exposition management will suggest one or more names of St. Louis women for the board members to recommend. Their recommendation will be made to the National Committee, which has the power of appointment, Members of the commission have signified their intention to be guided entirely by the suggestion of the board.

Mrs. HOLCOMBE'S RESOLUTION.

Mrs. Holcombe offered the following resolution, which was unanimously adopted, and is significant of the feeling of the board on the matter of having a St. Louis woman added to the membership:

"Resolved, That the Board of Lady Managers respectfully request the National Commission to suspend its rule limiting further appointments on the hoard, for the purpose of appointing a representative from the City of St. Louis upon the Board of Lady Managers;"

A suggestion was made that as the board has lost two members, it would be well to ask for two additional members instead of only one, It was thought best, however, to let the matter of appointing a "the boa

board members were entertained at an informal luncheon in the Administration building cafe by President D. R. Francis on behalf of the Exposition management. After luncheon the members assembled on the steps of the Administration building for a photograph. Miss Gould did not join her fellow members in this, but remained indoors while the picture was being taken. Mrs. Horton left the building immediately after the business session to fill an engagement for luncheon, and also falled to get in the group.

Automobiles were waiting at the foot of the Administration steps, and as soon as the photograph was made the women boarded these and went for a four through the grounds. They were all delighted with what they saw, and expressed surprise and admiration at the progress which has been made in building the Fair.

The return trip to the city was made in the private trolley car. Last night the members remained at their hotels and received visitors, and held informal consultations upon the work at hand. Members of the National Commission and of the Exposition management were prominent among the callers.

The board will go into session to-day at the Southern Hotel.
